PROFESSIONAL SUMMARY

Software Engineer with 2+ years of experience developing internal tools, modernising legacy applications, and supporting business-critical production systems. Proven track record of delivering user-focused solutions, troubleshooting complex issues, and improving operational efficiency through application enhancements, automation, and cross-functional collaboration.

SKILLS

Frontend :	React, Next.js, JavaScript, TypeScript, Tailwind CSS
Backend :	Node.js, Express.js, REST APIs
Databases :	MongoDB, PostgreSQL
Tools :	Git, Docker, Prisma, Drizzle ORM
Languages :	English, Telugu, Hindi

WORK EXPERIENCE

Software Engineer | Full-time 2024 - Present
Tata Consultancy Services On-site • Hyderabad

- Developed and enhanced internal support tools, operational dashboards, providing real-time visibility into platform health, message processing, pending queue volumes, and system status for support users.
- Modernised legacy applications by redesigning and rebuilding user interfaces, implementing pagination, filtering, refresh controls, and secure authentication, improving usability and reducing manual operational effort.
- Investigated and resolved 30+ production issues related to API failures, server outages, and data processing issues by analysing logs, identifying root causes, and implementing corrective actions, improving system availability and minimising downtime.

PROJECTS

ShortURL 2026 - Present

- Built a full-stack URL shortener using **Next.js, TypeScript, Prisma ORM, PostgreSQL, and Better Auth**.
- Built a fast dynamic redirect route `/ {slug}` that redirects users to the destination URL.
- Generated **stable QR codes** for every short URL, ensuring QR codes remain valid even when the destination URL changes.

MoodLog | 🌐 2025 - 2026

- Built an AI-powered journaling web app using **React, JavaScript, React Router, and Tailwind CSS**.
- Integrated Google Gemini via Vercel AI SDK to analyze journal entries and generate mood tags, summaries, and reflective questions.
- Implemented backend API routes for entry creation, retrieval, detail views, and AI mood analysis.
- Connected the app to Neon Postgres using **Drizzle ORM** for persistent journal storage.
- Created a responsive light/dark themed UI with real-time entry submission, mood history, and detail pages.

CERTIFICATIONS

- DevOps Professional Certificate by PagerDuty and LinkedIn
- Atlassian Agile Project Management Professional Certificate
